SEALED LEAD ACID BATTERY

Versatile battery, rechargeable, resistant and completely portable

SEB -1245 / SEB -1275 / SEB -1209

MODEL	FEATURES	SEB -1245 SEB -1275 SEB -1209
OUTPUT	Output voltage	12V
	Ampere-hours	4.5Ah - 7Ah - 9Ah
GENERAL	Battery type	Sealed-lead-acid
	Cover	Leak proof casing

The line of sealed batteries created by *Spartan Electric*s, takes advantage of the benefits of acid lead to develop a versatile, rechargeable and portable unit. It does not require maintenance and it is possible to place it in any position without running the risk of spilling the electrolyte.

Developed with thick plates and insulated with fiberglass felt (AGM) to increase its usefulness, it is ideal to be used in various applications, such as UPS, security systems and power tools.

- Multipurpose use: flotation or cyclical use.
- Sealed and maintenance free equipment.
- Hermetic structure.
- Explosion-proof safety valve included.
- Excellent quality and reliability..
- Recovery capacity after deep discharge.
- Designed in three different configurations:
SEB-1245 12V 4.5Ah, SEB-1275 12V 7Ah
y SEB-1209 12V 9Ah.

- Lifespan (Usually: 3 years).
- Number of uploads and downloads that it supports (Usually: 1000).

APPLICATIONS
