AUTOMATIC VOLTAGE REGULATOR

Instantaneous surge protection
Absorbs harmful currents avoiding damage to connected equipment

SE - AVR1200U

MODEL	FEATURES	SE-AVR1200U
INPUT	Capacity	1200VA / 600W
	Voltage range	90 - 144VAC
	Frequency range	60Hz
	Joules	320J
	AC plug style	NEMA 5-15P
OUTPUT	Voltage range	120 ± 6% VAC
	Frequency range	60Hz
	Outlet type	4 NEMA 5-15R
GENERAL	Color	Black
	USB charging ports (4)	5VDC, 2.1A max

Spartan Electrics' automatic voltage regulator is a compact unit that offers total protection against irregularities in the electrical voltage, since it is designed with state-of-the-art technology to facilitate its installation and use.

It is the perfect solution to optimize the performance of your peripherals and protect your valuable investment in areas identified with constant fluctuations. Hence, it has a cooling system to dissipate excess heat, maintaining an optimum operating temperature inside the unit.

NEW

SE - AVR1200U
1200VA / 600W

- Voltage regulation function, which according to a constant monitor automatically adjusts the output voltage.
- Slot for smartphone placement when charging.
- LED indicators that show the status of the equipment, as well as the voltage and overload levels.
- Built-in thermal switch for overload protection.
- Includes 4 USB ports SC - 5VDC 2.1 max.

APPLICATIONS

USB
USB 2.1A max.
