

POWER STRIP

**5 YEARS
WARRANTY**

SE - PS - 001B / SE - PS - 001W

**Includes circuit breaker
that avoids overloads**

Spartan Electrics' power strips are an essential element to protect various electrical equipment in a safe, convenient and economical way against the negative consequences caused by sudden and dangerous voltage spikes. In addition, it has a circuit breaker that prevents overload. Fundamental when there are several nearby computers and their peripheral.

They also have an on / off switch to cut off power consumption if the devices are not going to be used, resulting in greater energy savings.

MODEL	FEATURES	SE-PS-001B SE-PS-001W
INPUT	Voltage range	110 / 120V
	Amperes	15A
	Frequency range	60Hz
	Max. Consumption	1875W
	Protection type	Breaker
OUTPUT	Outlet type	6 NEMA 5-15R
GENERAL	Cable	0,91m
	Color	Black / White
	USB charging ports	(2) 5VDC, 2.1A max

- 6 universal perfect-fit sockets.
- Three-prong grounded plug.
- Illuminated on / off switch.
- Cable 0,91m long.
- Protection against voltage surges.
- Available in black and white color.
- Includes 2 USB ports SC - 5VDC.

APPLICATIONS

NEMA TYPE OUTPUT
CONNECTORS
